

## Zearalenone-Antibody

Monoclonal Antibody against Zearalenone (ZON)

### Specification

|                        |  |
|------------------------|--|
| Antigen                | Zearalenone (ZON)                                  |
| Cross-Reactivity       | not tested   |
| Type of Antibody       | Monoclonal   |
| Host Animal            | Mouse  |
| Tested Application     | ELISA, kFP   |
| Antibody Concentration | 1 mg/ml, after reconstitution with deionized water |
| Volume                 | -  |
| Amount of Antibody     | m $\approx$ 0.2 mg                                 |
| Buffer                 | lyophilized, Lot specific information              |
| Quality Controller     | Lot specific information                           |
| Storage                | 4 °C, protect from light                           |
| Retest date            | Lot specific information                           |

### Note

**Contains Lot specific salts. Reconstitute in deionized water for a concentration of 1 mg/mL.**

### Caution

The use of this product is strictly limited to trained personnel for professional manufacturing, laboratory, or research purposes. Substance not yet fully tested. Final Fitness-For-Use must be determined by and is the sole responsibility of the end-user.
