

## Aflatoxin-Antibody

Monoclonal Antibody against Aflatoxin (AFLA)

### Specification

|                        |  |
|------------------------|--|
| Antigen                | Aflatoxin (AFLA)   |
| Cross-Reactivity       | Aflatoxin B1, G1 100 %, B2, G2 ~ 40-60 %;<br>B1:B2:G1:G2 Mix 1:4:1:4 ~ 150 % |
| Type of Antibody       | Monoclonal   |
| Host Animal            | Mouse  |
| Tested Application     | ELISA, kFP   |
| Antibody Concentration | 1 mg/ml, after reconstitution with deionized water                           |
| Volume                 | -  |
| Amount of Antibody     | m ≈ 1.0 mg   |
| Buffer                 | lyophilized, Lot specific information  |
| Quality Controller     | Lot specific information   |
| Storage                | 4 °C, protect from light   |
| Retest date            | Lot specific information   |

### Note

**Contains Lot specific salts. Reconstitute in deionized water for a concentration of 1 mg/mL.**

### Caution

The use of this product is strictly limited to trained personnel for professional manufacturing, laboratory, or research purposes. Substance not yet fully tested. Final Fitness-For-Use must be determined by and is the sole responsibility of the end-user.
